

A CHECK LIST OF ARTICLES PUBLISHED IN THE REPORTS
OF THE SOCIETY FOR THE HISTORY OF THE GERMANS
IN MARYLAND, 1886-1982

Compiled by William T. Snyder

For almost a century the Society for the History of the Germans in Maryland has published *Reports*. What began as a series of annual reports in the early years turned into a scholarly publication issued at irregular intervals. A glance at the articles in this check list will convey to any reader the scope of the material presented. Over the years virtually all facets of German American studies have found their expression in the thirty-eight volumes covered. Initially, in 1972, this compiler began to prepare a subject index as well but the majority of titles contains enough information for the researcher to select items for specific purposes. Such an index would have become an undertaking well beyond the scope of usefulness. The Society for the History of the Germans in Maryland has never been self-serving. From the beginning it has endeavored to present German American material in a form that would ultimately permit scholars and laymen unfamiliar with the German language to utilize such information and incorporate it into the history of the American people as a whole.

A name and subject index exists for all *Reports* published until 1939. Entitled "Index to Publications of the Historical Society," it appeared in *Report* XXIV (1939), pp. 67-72. It should be consulted by those who want to make use of certain materials in the earlier *Reports* which was contained in a few articles written in the German language.
